“Engineered Comfort. Manufactured to Last.”

ABOUT US

Established in 1993, Ferro Fabs Industries is a legacy-driven manufacturing company dedicated to engineering comfort, health, and performance through precision-driven design and material innovation.

Version 1.0 of our journey began under the vision of Mr. Daman Pal Singh, Founder of Ferro Fabs Industries. With a strong focus on cycling ergonomics and rider comfort, he successfully built the company into a well-recognized and trusted bicycle saddle manufacturer in the Indian market. Understanding that rider performance is directly influenced by saddle comfort, we developed a comprehensive range of high-quality bicycle saddles engineered for durability, stability, and anatomical support. Our saddle portfolio includes products manufactured using PU, and PVC tops, featuring pressure-relief cutouts and gel-based cushioning. Designed for men, women, and children.

As the company evolved, Mr. Sapandeep Singh, son of the founder, joined Ferro Fabs Industries, bringing fresh perspective, modern manufacturing insight, and a forward-looking vision.

Version 2.0 marks our expansion into advanced memory foam manufacturing, leveraging decades of expertise in ergonomic engineering. Our memory foam division produces orthopedic pillows, neck rests, backrests, lumbar supports, and coccyx cushions, etc., engineered for effective pressure redistribution, spinal alignment, and long-term comfort across residential, medical, and professional applications.

Manufacturing Excellence & OEM Capability Ferro Fabs Industries offers end-to-end OEM and private-label manufacturing solutions, supported by scalable production capacity and flexible customization. We work closely with OEM partners to meet specific design, material, density, and branding requirements while ensuring consistent quality and timely delivery.

From performance cycling components to advanced memory foam comfort solutions, Ferro Fabs Industries remains committed to reliability, innovation, and long-term partnership success.

Ferro Fabs Industries – Engineering Comfort with Precision Since 1993.

DISCLAIMER

Our memory foam products are designed to enhance comfort and support during everyday use. These products are not intended to diagnose, treat, cure, or prevent any medical condition and should not be considered a substitute for professional medical advice, diagnosis, or treatment. If you have a medical condition or persistent pain, please consult a qualified healthcare professional.

FERRO FABS INDUSTRIES®

MANAGING DIRECTOR

MR. SAPANDEEP SINGH

FROM THE MANAGING DIRECTOR

At Ferro Fabs Industries, comfort, quality, and performance guide everything we do. Built on the strong foundation established in 1993, we continue to evolve with innovation and precision.

Our expansion into advanced memory foam solutions reflects our commitment to modern ergonomic needs.

We focus on consistent quality, reliable manufacturing, and strong OEM partnerships. Every product is designed to deliver long-term comfort and value. As we move forward, we remain dedicated to engineering comfort you can trust.

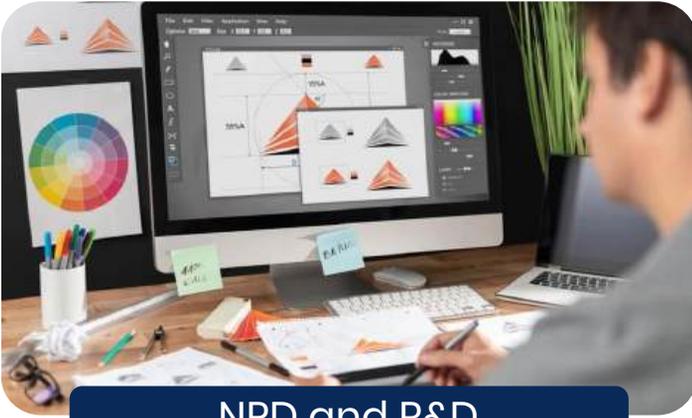

OUR VISION

"To become the most trusted partner in our customers' lives, setting the standard for quality and reliability in every home and workplace we touch."
